

# Studio Ghibli Website — —#1 Meeting Note

Creative Director: Zihan Z.

Designer: Michael A.

In the meeting, we discussed the how the overall feeling of this site would be and the film chooses. We talked about narrow the numbers of the films and if so what are we going to keep. We agreed that the page should be simple that viewers' focus is on the information. We also touched on what kind of the images that we may use and how many information we should include on each page.
